MECHANICAL ENGINEERS

Message

I am happy as well as proud to address to the new batch of Engineers which is passing out from, our institute. As Engineers you have become an important part of the society and as such a heavy responsibility has fallen on your shoulders for the upliftment of this society which has contributed a lot to bring you to this level. You should not forget to give return with interest. This, you my dear young fellows, can do by working hard with honesty. A good living is hallmark of teachings of all greatmen and we should try to follow them and leave the selfish materilistic approach. The institute which has contributed to your present status is named after the great Guru and I shall like to quote him here :

ਸਚੁ ਓਰੈ ਸਭੁ ਕੋ ,
ਉਪਰ ਸਚੁ ਆਚਾਰੁ

This when translated in simple English means :

Every thing is below truth (God) but. Truthful (Godly) living is still higher.

We need to heed to the advice of great men and to shed the selfish attitude so prevalent in our present day scenario. The life is best lived when lived with sacrificing spirit. We should not forget the persons who sacrificed a lot for our sake because this is the way to a better human life. My dear young Engineers, I hope, you will inculcate in you this type of living attitude and be worthy persons of whom everyone may feel proud of. In the end, I wish you all success for the type of life I have mentioned above

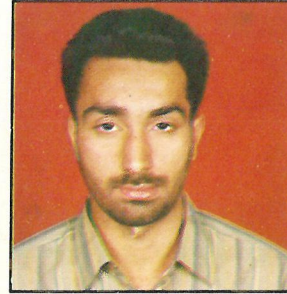

With best wishes
